Get Ready To Make It Yours

What You Need To Know

You'll enroll in medical, dental, and vision benefits through the Aon Benefit Experience (BenX) at asurion.benefitsnow.com. BenX makes it easy to find the right fit. Just choose your coverage level, the price you want to pay, and the insurance carrier you want to work with.

What You Need To Do

You must enroll to get the medical coverage you want! If you don't enroll—or you enroll in no medical coverage but you don't submit the Hawaii medical coverage waiver form (HC-5)—you'll be covered by the lowest cost Gold medical option. Also, if you don't enroll, you will not have dental or vision coverage through Asurion. And, to contribute to a flexible spending account, you must make an active election.

Waiving Medical Coverage?

If you elect "no medical coverage," the state of Hawaii requires that you complete and submit a Hawaii medical coverage waiver form (HC-5). A copy of this form will be sent to you through the U.S. mail. By completing this form, you claim to be exempt from coverage requirements under the Prepaid Health Care Act. After completing it, please return the form to Asurion Benefits Central at the address provided on the form.

* Preventive drugs are determined by the insurance carrier or pharmacy benefit manager. You must have a doctor's prescription for the medication—even for products sold over the counter (OTC)—and you must use an in-network retail pharmacy or mail-order service.

These charts may not take into account how each coverage level covers any state-mandated benefits, its plan administration capabilities, or the approval from the state Department of Insurance of the benefits offered by the plan. If you have questions about a specific benefit, contact the insurance carrier for additional information. In the event that there is a discrepancy between this site and the official plan documents, the official plan documents will control.

These charts are a high-level listing of commonly covered benefits across carriers and coverage levels for the Aon Benefit Experience. They are intended to provide you with a snapshot of benefits provided across coverage levels. In general, carriers have agreed to the majority of standardized plan benefits recommended by BenX. Individual carriers may offer coverage that differs slightly from the standard coverage reflected here.

For a more detailed look at these and additional coverages, go to the ABC at asurion.benefitsnow.com. It does account for any carrier adjustments to standardized plan benefits. To see summaries when you enroll online, check the boxes next to the options you want to review and click **Compare**. In order to get the most comprehensive information about any specific coverage, you will need to call the carrier directly.

Note: For additional comparison, you may find Summaries of Benefits and Coverage on the ABC.

Important! If you choose HMSA as your insurance carrier, you'll have a separate and additional out-of-pocket maximum for prescription drugs. That means your medication costs will not count toward your medical out-of-pocket maximum (and vice versa).

How Does The Deductible And Out-Of-Pocket Maximum Work?

- The HMSA Gold and Kaiser Gold options have a **traditional deductible**. Once a covered family member meets the individual deductible, your insurance will begin paying benefits for that family member. Charges for all covered family members will continue to count toward the family deductible. Once the family deductible is met, your insurance will pay benefits for all covered family members.
- All medical options have a **traditional out-of-pocket-maximum**. Once a covered family member meets the individual out-of-pocket maximum, your insurance will pay the full cost of covered charges for that family member. Charges for all covered family members will continue to count toward the family out-of-pocket maximum. Once the family out-of-pocket maximum is met, your insurance will pay the full cost of covered charges for all covered family members.

Going Out Of Network?

- **If you choose HMSA**, seeing out-of-network providers will cost you more than seeing in-network providers. For example, you could pay more through a higher deductible, higher coinsurance, and the entire amount that exceeds the maximum allowed amount, which is typically based on the amount Medicare pays.
- **If you choose Kaiser Permanente** as your insurance carrier, you must designate a primary care physician to coordinate your care and out-of-network care is **not** covered.

Medicare Basics

Medicare is a federal medical insurance program, which includes Original Medicare. Original Medicare is a low-cost government insurance program that guarantees access to health insurance for Americans age 65 and older and younger people with certain medical disabilities. It pays for many health care expenses, but not all.

How It Works

Medicare covers its share of an approved amount and you pay the rest through deductibles and coinsurance. Original Medicare is made up of two parts:

- **Part A is hospital insurance.** It covers inpatient hospital care, skilled nursing facilities, hospice, lab tests, surgery, and home health care.
- **Part B is medical insurance.** It covers things like clinical research, ambulance services, durable medical equipment, mental health services, limited outpatient prescription drugs, and more.

You are automatically eligible for Medicare Parts A and B when you become Medicare-eligible. If you are receiving Social Security benefits, you may be enrolled in Medicare automatically.

If you have to sign up to get coverage, you can enroll starting three months before the month you turn age 65. The deadline to enroll is three months after the month you turn age 65. (Note: You can wait to enroll in Part B; however, you may have to pay a late enrollment penalty. In general, you can wait to enroll in Medicare Part B without facing a late enrollment penalty until your active employment ends or the date your coverage under your employer's plan ends, whichever occurs first. Consult your Medicare advisor for more details.)

Part D is optional prescription drug coverage. You can enroll in Part D if you want coverage to help pay for your prescription drug costs.

How Medicare Works With Company Coverage

If you are actively employed, your company's health plan will be your primary medical coverage, and, if you choose to enroll in Medicare, Medicare will be your secondary coverage.

If you are retired and have coverage through your previous employer, Medicare will be your primary medical coverage, and your company's health plan will be your secondary coverage.

As you prepare to transition to Medicare, you will want to understand if your dependents under age 65 will be eligible for coverage under your company's health plan.

How Medicare Works With COBRA

If you are eligible for Medicare Parts A and B but you choose to not enroll in Medicare Parts A and B, you may face potentially significant out-of-pocket expenses. COBRA coverage pays secondary to Medicare Parts A and B. Therefore, the plan will pay as if Medicare has already made a payment, even if the Medicare-eligible individual did not actually enroll in Medicare.

If your Medicare benefits (Parts A or B) become effective on or before the day you elect COBRA coverage, you can have COBRA and Medicare coverage. This is true even if your Part A benefits begin before you elect COBRA coverage but you don't sign up for Part B until later.

If you become entitled to Medicare after you've signed up for COBRA coverage, your COBRA coverage may be terminated by your plan as of the day you enroll in Medicare. (But if COBRA covers your spouse and/or dependent children, their coverage may continue.)

Dental Coverage Level

Which Coverage Level Is Best?

You get to choose how much coverage you need and how you want to pay for it. When you choose your coverage level, you get to pick the one with the features you want.

Your coverage level determines how much you pay out of your paycheck (premiums). It also determines how much you pay out of your pocket when you receive care (deductibles, coinsurance, copays). Make sure to take your **total** costs into consideration when choosing a coverage level.

Don't let the names of the coverage levels fool you. One option isn't better than another. The coverage levels are designed to give you choices. It's up to you to find the one that makes sense for your situation.

Dental Coverage Level Options

Annual Deductible and Plan Limits				
Annual deductible (individual / family)	\$100 / \$300	\$100 / \$300	\$50 / \$150	None

Major restorative care (e.g., crowns, implants, dentures)	Not covered	You pay 40% after deductible	You pay 20% after deductible	Varies by insurance carrier

Orthodontia

Not covered

You pay 50%, no deductible; children up to age 19 only

You pay 50%, no deductible; for children and adults

Varies by insurance carrier

¹If you switch insurance carriers, any orthodontic expenses you've already incurred under your current carrier will count toward your new carrier's orthodontia lifetime maximum.

²Not available in some limited areas. Only the coverage levels for which you are eligible will show as options when you enroll.

Considering Platinum? It may cost less than some of the other options, but you **must** designate a primary care dentist who participates in the insurance carrier's Platinum network (where available by carrier) and get care from your primary care dentist. The network could be considerably smaller, so be sure to check the availability of local in-network dentists before you enroll. If you don't designate a primary care dentist when you enroll, one may be assigned to you. To change your primary care dentist, you will need to contact the insurance carrier directly. If you enroll in a Platinum option and don't use a network dentist, you'll pay for the full cost of services.

Considering Delta Dental? With most carriers, knowing that your dentist is in the network is a simple way to get the best deal when you need care. If you're considering Delta Dental, you need to take it one step further.

- If you choose a Bronze, Silver, or Gold option, there are actually two Delta Dental networks—PPO and Premier. Although the benefits are the same for both, you may have to pay more if your dentist is only a part of the Premier network. You can save more by seeing a Delta Dental dentist who participates in both the PPO and Premier networks, or by using any in-network dentist if you choose another insurance carrier.
- If you choose a Platinum option, the Delta Dental network goes by the name of "DeltaCare." So you need to make sure your dentist is in the DeltaCare network—not just the Delta Dental network. You can also get the same deal by using any in-network dentist if you choose another insurance carrier.

You can check if your provider is part of either network on asurion.benefitsnow.com or through **Your Carrier Connection**.

Dental Price

Find the right balance between what you pay out of your paycheck and what you pay when you get care.

When you make a purchase, you decide how you want to pay. Would you rather pay cash now or use credit and pay later? It's the same idea with BenX.

Just like your medical coverage, your dental coverage costs will depend on a few factors:

The Coverage Level You Choose

Bronze

The Bronze coverage level generally costs less per paycheck. That's because some services aren't covered and because it has the lowest benefit maximum.

Silver

The Silver coverage level is moderately priced since most services are covered. However, the benefit maximum is lower.

Gold

The Gold coverage level costs more per paycheck since most services are covered. The benefit maximum is also higher.

Platinum

The Platinum coverage level generally costs less. It provides comprehensive coverage for in-network care only.

The Insurance Carrier You Choose

Certain insurance carriers may be able to provide a more competitive price per paycheck.

Your Dependents

You can enroll any combination of you, your eligible spouse, and your children in the option you choose.

You can learn more about covered services [here](#).

Identity theft protection is a voluntary benefit administered by LifeLock with Norton. The plan covers all eligible family members. And you can drop coverage at any time during the year.

Things To Consider

When deciding whether to enroll in identity theft protection, be sure to consider the following:

Cost per Paycheck

You'll be able to see the cost per paycheck when you enroll.

Your Risk Factors

While everyone has risk, some people are at greater risk than others. Have you used credit cards on unsecure websites? Do you make online purchases regularly? If you answered "yes" to either question, having identity theft protection could give you peace of mind.
