MetLife Accident Insurance through your workplace may be more affordable than you may think.

Consider this:

*My daughter, Molly, plays soccer. Some time ago, Molly collided with another player, was knocked unconscious and was taken to the emergency room by ambulance. The emergency room doctor ordered a CT scan and diagnosed a concussion and broken tooth. Molly was released to her primary care physician for follow-up treatment, and her dentist repaired her tooth with a crown. Luckily, we had **accident insurance!** I got a lump-sum payment totaling \$1,250.**

Accident insurance can help with expenses, such as those incurred under your high deductible health insurance plan (HDHP). With an HDHP, you can expect to pay lower premiums because your deductibles are higher. However, higher deductibles could mean greater out-of-pocket expenses in the event of an accident. To help you be more financially prepared, you have the opportunity to enroll for accident insurance.
