

Help supplement your healthcare coverage with MetLife Hospital Indemnity Insurance.

Receive benefit payments directly to help prevent financial stress.

Hospital¹ stays can be expensive. **MetLife Hospital Indemnity Insurance can help you pay for expenses if you or a loved one becomes hospitalized.**

During a hospital stay, you might need various treatments, tests and therapies to get up and about again. These services could result in out-of-pocket costs beyond what your medical plan may cover, such as deductibles, co-pays and out-of-network care costs. Household expenses—like your rent or mortgage, car payment or childcare—may become harder to keep up with while you focus on recovering.

With MetLife Hospital Indemnity Insurance, **you will receive a lump-sum payment you can use as you see fit, like to help pay for these household costs³.**

Consider this scenario:

I woke up in the middle of the night experiencing chest pain. An ambulance took me to the emergency room at a local hospital. The doctor examined me and advised me that I required urgent bypass surgery. After my surgery, I was admitted to the intensive care unit for observation. After one day there, I moved to a standard room for two days while I recovered in the hospital. Luckily, I had Hospital Indemnity Insurance! I got a lump-sum payment totaling \$2,800.²

Hospital Indemnity Insurance may help supplement your high deductible health insurance plan (HDHP) coverage. With an HDHP, you can expect to pay lower premiums because your deductibles are higher. However, higher deductibles could mean greater out-of-pocket expenses in the event of a serious illness. To help you be more financially prepared, you have the opportunity to enroll in a hospital indemnity plan.
